

BUY MOFGA CERTIFIED ORGANIC!

LOCAL ...

lets us know WHERE our food is produced, but not HOW it is produced.

ORGANIC ...

is an environmentally- and animal-friendly way to produce and process food.

Organic involves standards for growing, storing and processing that:

- *PROMOTE* healthy soil, plants and animals
- *ASSURE TRANSPARENCY* through detailed records and on-site inspections
- *PROHIBIT* the use of genetically modified organisms, sewage sludge and synthetic chemical inputs (e.g. pesticides & antibiotics)

The MOFGA CERTIFIED ORGANIC LABEL

is your guarantee that Organic always means the same thing from farm to farm and store to store.

Local + Organic Better Together!

Original concept by ACORN, adapted by MOFGA
