

## Seed Inventory

This list is adapted from the index of the Fedco seed catalog. You can use it to check off which seeds you have in storage and which you need to order; and you can adapt it to reflect the plants that you grow in your garden. Seeds that are generally viable for only one year have an asterisk next to them.

Vegetables	Notes
Amaranth	
Artichoke	
Arugula	
Asian greens	
Beans, dry	
Beans, fava	
Beans, green bush
